2. The remarks made in the review of the Budget for Conservancy, Cleansing &c on the several points noted in the margin also apply to this Municipality.

3 No time should be lost in carrying into effect the revision of the Assessments ordered in Govt Nos 3362-73 Mc. 161 & 5816-27 Mc 286 of 27th September 1879 and 2nd Feby 1880, respectively.

4. The classes of increased Expenditure noted in the margin are Sanctioned

5. The marginally noted items have been disallowed as the reason for the same is not apparent. A Superintendent for a small Establishment like the Municipal Office may not be required. If he were changed to a peon, the necessity for an additional peon would be obviated. The single Assistant can be of little use for the Municipal Commissioners Scattered over so many divisions. His pay may be utilized for the additional peons required for the New Municipal divisions

A Separate provision for Temporary Establishments cannot be needed now that a Separate Engineer for the Pettah has been provided

6 The increased provision for Law and Printing Charges is allowed to stand. But the necessity for the same should be explained

7. The original Works, amounting to Rs 6500 which are of an ordinary character are sanctioned. The principal of them are noted in the margin. The Estimates with plans submitted for these, as corrected in this office, are also sanctioned. No details are given as regards appropriations required under Repairs. 1. Reduction of the post of Detective Overseer on Rs. 45 and a peon on Rs 6 per mensem under head "*Octori Collection.*"
2. The provision for charitable grants.
3. Development of Municipal resources and economy in expenditure.

(2)	Do do to Head Office do	60
(3)	Increase of Rs 5 per mensem to the pay of a Clerk in the Office of Muni Executive Engineer	60
(4)	Municipal Commissioners' Mutsaddi	120
(5)	Provision for temporary establishment	300
	Total . .	600

4 The items of increase to expenditure noted in the margin * are sanctioned.

5. The marginally † noted items have been disallowed as the reason for the same is not apparent. A Daffedar for a small establishment like the Municipal Office may not be required If he were changed to a peon, the necessity for an additional peon would be obviated. The single Mutsaddi can be of little use for the Municipal Commissioners scattered over so many Divisions His pay may be utilized for the additional peons required for the new Municipal Divisions A separate provision for temporary establishments cannot be needed, now that a separate Engineer for the Pettah has been provided.

6 The increased provision for law and printing charges is allowed to stand But the necessity for the same should be explained

7 The original works amounting to Rs. 6,556 which are of an ordinary character are sanctioned The principal of them are noted in the margin. The estimates with plans submitted, for these, as corrected in this Office, are also sanctioned No details are given as regards appropriations required under repairs The reserve provision of Rs. 2,000 for Public Works is also approved

	Rs
Constructing V section drains in Nos, 1, 2 and 5 Divisions	2,000
Do washing gunta at south-west corner of Sampangi Tank ..	1,944
Do Mandis at south east corner market at Pettah	1,355

8. The provision made for compensation, Rs 2,000, is large, but may be required in connection with the widening of streets But such contemplated improvements as are likely to involve a large expenditure should be reported for sanction.

9 An increase of Rs. 500 to Police charges is made on account of expected gratuities to Police Constables With reference to the wishes of the Board to be relieved of a part of the Police charges, their attention is drawn to the remarks made in para 8 of the review on the Cantonment budget which are equally applicable to the Town Municipality. But any suggestions from the Board to secure greater economy in the Police expenditure, without sacrificing efficiency, will always receive consideration

10 The Budget Estimates as now revised are sanctioned.

Sir,

I have the honor to acknowledge receipt of the Proceedings of the Chief Commissioner of Mysore and order thereon No 489-90 dated 26th April 1880 and with reference to certain disallowed provisions in the Town Municipal Budget for 1880-81, beg to offer the following explanatory remarks.

(1) Provision was made in the Budget for the addition of one Peon to the Market Establishment at present there is only one Peon attached to the Market, and whose duties are entirely confined to maintaining cleanliness and order in the large Vegetable Market. The Commissioners considered that the Services of an additional Peon were necessary to Supervise the Slaughter House and Mutton Butchers Market and to carefully examine all animals brought for Slaughter, and thus prevent the Sale of unwholesome meat.

(2) Peon for Head Office disallowed.

(3) An increase of Rupees 5 per mensem to the pay of the Clerk in the Municipal

Engineer's Office was considered necessary in consideration of the low rate of pay hitherto allowed to this official Rupees 15- and also in consideration of the additional work now thrown on the Department. The Municipal Executive Engineer is now expected to report upon all applications to build new Houses, and as a matter of fact the clerical work of the Office has since the appointment of a European Engineer very largely increased.

(4) I have been specially requested by the Commissioners to point out that the Services of the Mutsuddy, hitherto allowed to them cannot be dispensed with without much inconvenience to them personally, All petitions and Complaints, and all papers connected with the Award of Compensation for houses or land required to be taken up, are referred to the Commissioners and all such papers, till disposed of are kept in the custody of the Mutsuddy, whose duty it is also to keep a Register of all papers passing through his hands, their date of receipt, despatch &c. Under the above explanation, I trust the Services of the Mutsuddy may be permitted to be retained.

(5) It was considered that a detailed Map giving a correct delineation of all the Streets and lanes in the Pettah would greatly facilitate our operations for opening up many overcrowded localities the drainage

drain and Culvert money of which could then also be properly carried out and will lead to a small Establishment Consisting of a Surveyor and 3 Coolies was consequently entertained for the above purpose towards the close of last year, and up to date Maps of 2nd & 3rd & IV Queen's have been prepared and it was for the purpose of enabling the work to be carried out to its Completion that the provision in the present year's Budget was made. The Map of the Town, & there is reason to believe will be found most useful and I must therefore that the necessary Establishment for its Completion may be Sanctioned.

I have the honor to be

Your most Obedient Servant
